\$20,000 DAMAGES ASKED BY MAYOR

Waycross Herald Defendant in Suit Resulting From Publications During City Campaign.

Waycross, Ga., February 28.—(Special.)—In city court today Mayor Scott T. Beaton filed suit against The Herald Printing company, publishers of The Morning Herald, for \$20,000 damages because of certain matter published by The Herald in its issue of November 23, last year, during the campaign for mayor.

Mayor Beaton declares The Herald did "falsely, wickedly and maliciously" compose and publish of and concerning him a false, scandalous, malicious and defamatory libel, extended over a whole page.

"Exception is taken in the libel suit to the publication in The Herald of a cartoon referring to the Beaton campaign cartoon representing Beaton as the watch dog of the city treasury as 'Beaton's cartoon' embodied in the tiger, a splendid likeness of Beaton and his record. What a mistake they have made to put on a blind tiger to guard our city treasury. They have at last shown their character in his true character."

Another section especially complained of as libel is as follows: "Give us support for a man whose greed for money and riches has not poisoned and blackened his soul and heart."

Mayor Beaton further charges that he has been damaged by the publication of "authentic" information that the American Brewers' association was backing him for mayor, and that he contributed \$2,500, or more, if needed, to elect him mayor.

Appeared as Advertisement. The libel charged by Mayor Beaton was published but one issue, appearing as an advertisement for a political organization, known as the Good Government club, in which a number of prominent and well-known citizens were named.

N. P. Donovette, known throughout Georgia and Florida as owner of the Herald company, and is also a banker of this city.

Before his election for mayor, Mr. Beaton said he would sue The Herald, but his political opponents took his threat as a jest. He now says that he can sue as a citizen, and has employed to represent him, former Judge of the John S. Walker.

The case will come up at the next term of court before Judge John C. McDonald.

Big South Georgia Rooster Steals Seventy-Five-Mile Ride on a Freight Car.

Thomasville, Ga., February 28.—(Special.)—A regular hobo rooster that beat the railroad out of a side of 75 miles is what Thomasville can boast of having produced.

A few days ago a lady living in the vicinity of the Atlanta, Birmingham and Atlantic railroad station here missed a big Rhode Island Red rooster from her yard, but failed to find it.

She had seen of it having been in the neighborhood of the railroad, and she had seen it in the hands of a man who was in the train.

MERCER STUDENTS DENY ALLEGED ROWDY ACTS

Indignation Meeting Held to Protest Against Printed Reports of Their Fun.

Macon, Ga., February 28.—(Special.)—Students of Mercer university, while admitting that they had the special in some of the disorders which occurred here last Wednesday while the celebration was in progress over the arrival of the heaviest snow in the history of the city, deny that they were the ones guilty of the acts of rowdiness claimed to have taken place in various portions of the city and told of in the newspapers of the state the following morning.

In fact, the Mercer boys have sworn for as to hold an indignation meeting to protest against the printed reports of their alleged connection with the disorders.

The students place the blame on a "gang of town roughs," who they say took advantage of their presence in a business portion of the city, where they were engaged in a musical battle, to perpetrate certain acts of violence.

Here is the substance of what a committee named by the students reported it had to have conducted the day in question:

One hundred students left the campus after breakfast and went to Wesleyan college, where they engaged in a musical battle with the girls of that institution, all thoroughly enjoying it. Casualties: two or three window panes broken, for which the students paid.

No Malicious Intent. From the college the students went to the business portion of the city where many snowballs were thrown, but none with malicious intent. Mercer men disclaim connection with anything of the kind, mistaking women on the streets, though they were not connected with the disorders.

No First Fights. The report of the first fight between Mercer men and pedestrians are untrue, no Mercer men participating in the fight during the day.

No One Intended to Shoot the Students. The boys made a mistake in going in the crowd, for which they were snowed in the halls, for which they were snowed in the halls.

This, in brief, is the substance of the report of the students, who themselves admit that they were in the crowd, but that they were not connected with the disorders.

In the crowd gathered on the street that day it was impossible to distinguish between students and town boys, and everyone was snowed in the crowd.

An Interesting "Style Talk" of the New Modes for Women and Misses

An excellent showing of clever new models offered in Worsted Crepes, Gabardines, Serges, Crepe Poplins and fancy and novelty fabrics of rare quality.

Style characteristics of the new suits for Spring are the youthful lines, the Spring-like shades, of the materials and the new trimming touches.

Suit Coats are similar to Eton jackets with cut-off rather than cut-away fronts and slanting to a few inches below the waist line in the back. The novel features are the graceful spring or flare at the sides and back of the jackets.

The pannier, the extension at the hips, the bouffant, bustle, tunics, peg-top and two, three and four tiered effects, are most in evidence in the new skirt styles.

Suit Prices Range from
\$19.75, \$25, \$29.75, \$35, \$39.75, \$43.75 to \$63.75

The new Silk Dresses for Spring are simply gorgeous, many of them really of the new Spanish designs. The realm of fashion has been invaded this year by almost every conceivable idea of the picturesque in color, fabric and design. Ruffles are with us again in abundance, wide and narrow. Taffetas soft and clinging, Messalines and Crepe Meteors, Crepe de Chines and all the new silky materials shown in them here in endless variety. We ask your inspection of the best dresses our buyer has ever before shown to the ladies of Atlanta.

Prices Ranging from
\$19.75, \$25.00, \$29.75, \$35, \$39.75 to \$83.75

ENTRIES IN DECATUR CO.

Much Interest in the Race for Tax Collector.

Bainbridge, Ga., February 28.—(Special.)—Entries in Decatur county's annual free-for-all closed today with the entrance numerous and representing every faction in the county. The election is to be held on March 10, and the remaining days will be spent in a general hunt for votes.

There is no issue involved, though the race county sentiment is somewhat in evidence, and quite a number of votes will be cast according to the opinion of the county the various candidates had from.

Interest seems to center in the race for tax collector. The late Jim Butts held the office for about ten years, and was not there opposed of late years.

Scotchman Who Heard Strange Voices Placed In Cruickshank's Care

Judge W. H. Preston, at the police court matinee Saturday, turned over J. M. Cruickshank, the Scotchman who came to Chief Beavers seeking "strange voices" to the care of another Scotchman, Alexander Cruickshank, the well-known tobacco man of Atlanta, who offered to take care of him until something could be done for him mentally.

Goodwin told Judge Preston that he had been four days in the city, and was worried him for some time. He told the judge that the voices cried continually to him, "St. Anthony's murder. You are the bloody murderer of St. Anthony."

It looks as if, despite Saturday's rain, today would be bright and fair, but the promise for Friday and Monday is "clear and warm."

Chicago athletes and even those who are not athletes, are cheering for it as believed, as the period of the Atlanta weather, which is the charge in the weather conditions will be for the better.

SUIT AGAINST A. B. & A. SETTLED AT CORDELE

Cordele, Ga., February 28.—(Special.)—The case of W. B. Matthews against the Atlanta, Birmingham and Atlantic railway in superior court of Crisp county, the nature of which is conditional in the history of Georgia cases, was settled today by consent of the parties.

On the grounds that a freight train had been derailed, and the passengers and property were damaged, the railway was liable for the damages.

SPRING-- EASTER

After Washington's birthday, spring cannot be far behind. And, despite the snow, and other evidence to the contrary, we know it is just around the corner.

Spring! She is a wonderful creature. Never twice alike, yet always essentially the same. The same whisper runs through the earth each year, the same call is sounded on the hills and in the woods; yet with her coming each season the song is somehow changed and made glorious with a sudden new meaning.

We watch for her coming with holy expectancy, and tremble with joy when her "footfall" sounds along the street, or over the meadows and fields. We know exactly how she will look, yet have the old thrill at her approach. This year we imagine she will be even more beautiful, more radiant, more girlish than ever—and she will soon be here, with Easter in her train.

The new fashions for that event are already arriving, and the feeling that "winter is over" puts an

Impetus and Buoyancy

into the store, which can be felt by all who watch the barometer of fashions.

"Variety Is the Spice of--" Boys' Spring Wash Suits

Where formerly there were only a few styles to choose from there are now at least a score of pretty kinds that are different. A variety of the best wash materials, many color combinations—plain colors or stripes or all-white, with the various kinds of collars boys like.

Russian Suits, 3 to 6-year sizes.
Sailor Blouse Suits, 2 to 10-year sizes.
Priced \$1 to \$10.

Spring-Time Hats \$5, 7.50, \$10

New Spring hats are rather conspicuous for their smallness and an abundance of fruit and feather trimmings. A number of new hats ready today in the Millinery Store are copies of French importations.

Each is different—and there are many becoming models!
Second Floor.

The Tiniest of Embroidered Flowers Scattered on a Sheer White Crepe Ground

That is one of the prettiest new fabrics in the silk section. Exquisite for blouses, for tunic effects on dainty frocks; 40 inches wide, \$2 yard.

Another exquisite soft white crepe has embossed conventional flowers in rose, blue or black; this will be very fashionable for dressy gowns; double width—\$2 yard.

Radiant Easter Silks

Look where you will in the silk section, you may see them. New and delightful!

Taffetas, Crepes de Chine, Novelty Moires, Poppins, Pompadours, Plaid Silks, Satin Failles, Moires.

Light-Weight Wool Materials For Easter Gowns

You will be surprised to find how soft and silky they are this season and how fine in weave—all to enable them to drape gracefully, according to the new fashions.

A soft pastel green and the shades of wistaria—of which there are several—are especial favorites. Other particularly pretty shades among the new materials are spring grays, blues, golden brown and some English checks.

Crepe cloths, newest of all—a variety of weaves, including some lovely novelties, in weights for suits and dresses. Widths from 50 to 54 inches, and priced from \$1.25 to \$2.50 yard.

Beautiful Lingerie Petticoats

Girls Can Buy for Less

Pay \$1.49 Monday for garments priced formerly up to \$3.50.

They are made of good materials and are beautifully trimmed with laces and braid stitching. They are fuller than the present styles call for, and hence the reduction in price. A slight alteration will make them right. Sizes to 18.

Suits New and Charming Are Only \$25.00

It is wonderful what \$25 will buy in Suits this season.

Suits of such distinction, such beauty of materials and prettiness of styles.

And one may choose either one of the lovely new, soft fabrics so popular now, or a smart moire silk, as fancy dictates.

Hardly anything more novel can be imagined than the suits for this season. The little short coats with their pretty collars, sometimes of contrasting materials, their quaint linings, many of flowered silk, some with fancy vests; the skirts with ruffles or flared tunics. Their picturesqueness never fails to charm one.

There are various materials—crepes, poppins, crepe Bedfords, suitings and moire silks—not forgetting the popular gum club, or English checks.

The color tones are particularly appealing: Soft blues, lovely greens, new browns, tango, wistaria and mode.

We want you to see this particular showing of Suits at \$25.

Silk Petticoats for Spring Suits and Dresses

Especially pretty ones at \$2.98.

They are new—made of messaline in all the fashionable hues and different styles.

(Third Floor.)

New Dress Cottons for Spring

They grow every season more wonderful! More varied in weaves, more beautiful of texture, more marvelous of color tones.

We have never had more delightful dress fabrics, both cotton and linen, than are here now for your consideration.

For morning and afternoon frocks, and smart tailored gowns and suits, there are ratines in various weaves that are fashionable. Plain colors and mixed and striped effects.

Linen, of course, will be worn, French effects in delicate and deeper tones and the rough Ramie and Bagdad weaves for suits and tailors' frocks.

Then all the superb, soft, sheer, filmy fabrics—time and space fails us—you must see the entire display in order to fully appreciate the new cottons and linens.

If You Want Something Different From Plain Cotton Ratine

Some people who are always on the lookout for novelties are asking us for it. You may have your choice of any of these new weaves, all of which have ratine as a foundation.

Canvas weave ratine, loosely woven, but heavy and substantial for suits, coats or walking skirts.

Makers of Pretty Blouses Have a New Trick

It is to make white lace or net over flesh-colored net or chiffon.

These new Blouses, just received, are of white silk shadow lace over flesh-colored chiffon. Low neck, three-quarter sleeves. They are charming and will very soon be claimed, at \$6.75.

Balkan Blouses For School Girls

The new styles for spring are particularly pretty. Made of white galatea with sailor collar of red, dark or light blue; 4 to 16-year sizes; \$1.00 each.

Plaited Skirts at \$1.00
Separate skirts, (with body attached) made of navy and white galatea, plaited style; worn with a middie or Balkan blouse, they make an ideal school costume for girls; priced at \$1.00.

Wherever Sewing Is Being Done a Dress Form Is Needed.
You will never know how easy it is to fit a dress correctly until you have a Hall-Borchert Adjustable Dress Form.

We have these forms at several prices, from \$1 to \$18, and would like to show them to you.
Second Floor.

Comfort—Real Comfort

ABOVE all else a Warner's Rust-Proof Corset is comfortable. Of course, they are fashionable as well, but fashion's lines are gained by common-sense designing—not by freakish, exaggerated stunts.

When you see a Warner's it may look like an ordinary corset—when you wear it you appreciate how extraordinary it is for combining comfort and style.

We would like to fit you in such a model as is best suited to your figure.
\$1 to \$8 pair.

Never Such an Assortment of Brassieres

Almost every other woman that comes to the Corset section buys Brassieres. For that reason we are compelled to keep a complete stock.

New Brassieres for spring—an immense shipment—have just come. There is almost every kind one could ask for. Judge of the variety when we tell you they are priced from 50c to \$10.

The favored styles for spring hook up the front; they extend to the waist and answer as corset cover and bust supporter. Some specially pretty Brassieres are of allover embroidery, or are hand-embroidered, or Cluny lace-trimmed. You will enjoy making your selections from this fresh, new stock.

Rompers for Children That Play

If a child is healthy he plays; if he plays he needs Rompers, the kinds that wash easily and well.

Here are scores of good, new kinds—made of ripplette, percale or madras; plain colors or stripe effects or white; 1 to 6-year sizes—50c each.

Creepers for Babies

Tots too little to walk, but who are attempting it need these creepers; they are made of white madras; 6 months to 2-year sizes; 50c each.

Popular wool crepes

Just off boat 150 pieces of assorted wool crepes in all of their variations. These will be the strongest favorites throughout for early spring wear, and are the advance guard of the most popular fabrics of the season. The colors and designs are uncommon and distinctive. As changes the budding shrubbery of the season, so changes the dress materials from winter to spring. Living up to nature, the foreign weaver sends us the daintiest and prettiest of colored wools. Revealing these as harbingers of spring, they are a relief to the eye and mind after the dark hues and heavy fabrics of winter. Crepes, crepelettes, canton crepes, meteor crepes—all are produced in wool and are assembled in one great offering, Monday, at

A great assortment **\$1.00** yd. at one price.

Stylish dress fabrics

Many new things, because of the tariff changes, are coming into market now that you could not buy heretofore, owing to the prohibitive prices under old conditions. This dress goods section, always in the fore front of style, will gain yet further laurels by its exhibit of novelty weaves, new colors and foreign textures. Lovers of the novel and exclusive in dress fabrics will revel here tomorrow in the attractive showing of all kinds of woollen fabrics not heretofore or otherwise obtainable. Including first showing Monday of:

Opening March Sales

Up-to-the-minute suits

Tomorrow, March 2nd, marks a distinctive style showing of correct Spring models. About one hundred new suits, that were opened Saturday, every one of which is a correct copy from the best models of the foreign master builders. Each suit is a gem in itself, and so many distinctive models are shown that lack of space would forbid individual description.

Of course there are variations of the distinctive styles, peculiar to this season. In general terms, we may say that all of the new features are incorporated which will make each piece shown an exclusive and individual suit. Some of the attractive features are new boleros, semi-tons and short cutaways; combination taffeta and moire trimmed. Skirts are tier panniers, tunic and girdle trimmed styles; many of them showing the new draped fronts, others with apron fronts and some few are developing a polonaise style. Colors capucine blue, greens, Tangos, browns, navies, Copenhagen, wistarias and blacks.

--the latest modes **\$37.50** in Spring suits

French dress cottons

We are ready tomorrow with an assortment almost too beautiful to be true.

The French loom wizards have produced this season the most luxurious and dressy cottons in the history of textile arts. Under new tariff changes, we are able to place them within reach of the American customers at a reasonable figure. These Frenchmen have shown a lot of courage, because they place their cottons in direct competition with the silks. They charm with their beauty, delight with their useful character and tempt with their little prices. Tomorrow an amazing assortment of novelties is assembled at one price, including plain eponges, French eponges, crepes, crepelettes, nub crepes, crystal finish crepes, Bourette eponges and 46-inch crepe linens.

THE tailored costume to the left is developed in *gens d'arme* blue. The collar and the cuffs are of white broadcloth. The scarf is of black chambray. The ensemble is thoroughly chic. In the center is a smart street costume for the first days of spring, a development of the "three-tier" model, which is destined to extreme popularity.

THE rolled-back collar denotes the final passing of the frill.

The afternoon frock of shimmering sea-color scorns pannier and overskirt, and displays a distinct tendency to harken back to the days when our grandmothers did not dare to sit down for fear of crushing the drapery drawn to the back of their skirts.

The accessories, the jewelry, the bags, the embroidery, and especially the hats, are as chic and up-to-the-minute as the suits themselves.

Attractive Attire for Afternoon

where Frank's friends say Conley killed Mary.

The Ferguson girl was the witness who went upon the stand and swore that on the night of the murder, Mary Phagan's murder, she had gone to Leo Frank in the pencil factory office and asked for Mary Phagan's envelope. She swore that Frank told her that he could not let her have Mary's money, as Mary herself was coming to get it the following day.

This was denied by the superintendent. Miss Ferguson, however, told nothing of her story of the encounter with Conley on the preceding Saturday. She is said to have not even told her narrative to Solicitor Dorsey. She said to the reporter that she had never attached much importance to the happening until her conversation with Burke.

Mrs. Nancy Ferguson, the girl's mother, said to the reporter that she did not know her daughter had made the affidavit until at least a month later. She was told then, she said, by J. W. Coleman, Mary Phagan's father, who had managed to get hold of it somehow.

Afraid to Tell Mother.

Mrs. Ferguson questioned Helen, learning that the affidavit had been made. She said the girl had been afraid to inform her mother of the document. The mother, immediately upon learning of the affidavit, sought to communicate with Burke, but stated she was unable to do so.

Helen declined to the reporter that she had made no statement, but was pertaining to her testimony on the stand. She stated emphatically that she was the truth, and that she never repudiated it. She is now employed with the Clark Woodruff company. She lives with her parents at 417 Chestnut street.

At the time of the tragedy, the Ferguson girl was employed at the National pencil plant. She lived in the neighborhood with Mary Phagan, and they were intimate companions. It was she who first received the news of Mary's murder. She was the first to convey it to the Coleman home.

On the Monday following the murder, Mrs. Ferguson would not permit her daughter to return to the pencil factory. From that day on she has never worked there. She has been connected with the plant for probably a year before the crime.

It was on the Ferguson girl's testimony that the prosecution based its theory that Leo Frank had planned to murder Mary Phagan. She testified earlier in the day, when she said she had arranged for the factory building would be practically deserted. Helen testified that she and Mary had been in the habit of getting each other's pay envelopes whenever either of them would be unable to visit the factory on pay days.

Said Frank Refused.

She said that Frank had never refused to permit this. On the day prior to the murder, however, she stated had come to the pay window at Frank's office, and she was in line with a number of other girls, had the superintendent for the day of her turn.

Quoted Frank as having said: "At five to it tomorrow." Coming to get it tomorrow.

On the return trip to her Chestnut home Helen says she saw an inbound trolley car. They were greetings, Mary, she said, was the girl who was the pretty victim alive. The two girls had been companions for years.

The fact that the Ferguson girl's affidavit has been in possession of the defense since Christmas strongly indicates that Frank's counsel holds an amount of just evidence, which will be contained in their motion extraordinary for a new trial. Another indication of this is the Forney affidavit, which was made in another year, less than three months before the Frank trial.

The Constitution is able to make public for the first time the sensational affidavit of Mrs. Nina Forney, in which she printed, verbatim in whole, she bears up in the documents and the statements of the detectives, Cheating, Norris, Vickery, Hamby and Ross' tower.

A new feature is made up in her accusations by the publication of the affidavit. He is the man who told whom the defense has been known for some time to have been the target. The Forney woman says Ross told her that Cheating and Norris were crooked and that they were forced to

stoop to anything in order to hold their jobs with the detective bureau.

Forney Affidavit.

The affidavit is along the exact lines of her sensational interview printed in the Constitution Thursday morning, when she talked with a representative in New York, where she is now living. The affidavit, in its complete form, is as follows:

Mrs. Nina Forney's affidavit follows: "I am a woman of the detective department of the police force, whose name is Norris and Cheating called at my home early one Sunday afternoon, the day I cannot be sure of. But it was after Leo M. Frank had been arrested in connection with the murder of Mary Phagan, all of which had been published in the newspapers and was my only source of information that Leo M. Frank was arrested.

They then made the murder of Mary Phagan the subject of this conversation and asked me if it was not a fact that Leo M. Frank had been arrested. I answered the same line, wanted to know Frank was in the 'habit' of coming to my home and as certain as I know it was not a fact that he was a degenerate and that he was a degenerate. I told them that I did not believe that Leo M. Frank was in the 'habit' of coming to my home and as certain as I know it was not a fact that he was a degenerate and that he was a degenerate. I told them that I did not believe that Leo M. Frank was in the 'habit' of coming to my home and as certain as I know it was not a fact that he was a degenerate and that he was a degenerate.

Told Them It Was False.

Cheating and Norris also wanted me to sign a statement on the telephone on the evening of April 2nd, and that I never repudiated it. She is now employed with the Clark Woodruff company. She lives with her parents at 417 Chestnut street.

STRONG PROTEST MADE BY BRITONS IN MEXICO

They Call on Home Government to Take Action About the Killing of Benton.

Mexico City, February 28.—Influence over the day in investigating the killing of William A. Benton at Cuernavaca recently was manifest tonight at a mass meeting of British subjects at the home of Mrs. J. H. Edwards, the British foreign minister. Sir John was appealed to by the British government to assume full charge of the investigation and place responsibility for Benton's death.

The following cablegram was sent to London:

"The members of the British colony have viewed with patience, but apprehension, the manner in which the British government has handled the case of Benton. The British government has been forced to assume full charge of the investigation and place responsibility for Benton's death."

Prompt Action Needed.

"They believe prompt and energetic action is essential to sustain the country and uphold the moral law. The British government has been forced to assume full charge of the investigation and place responsibility for Benton's death."

Marist won by 15 to 12. In one of the most spectacular and most heart-breaking games that have ever been played by the local prep leagues, the Marist college five was returned victor over the highly-touted Boys High last Tuesday afternoon by the score of 25 to 17 on the courts of the Athletic Club.

All of the advantage in this contest accrued to the Marist team, which secured the lead in the first period by the score of 10 to 5. The boys high team, which had been playing very well in the first period, was completely out of the game by the second period, and was unable to get back into the game by the third period. The game was a very fast and exciting one, and the Marist team played with great skill and teamwork.

Local Preps to Have Fast Baseball and Track Teams

One of the sure signs of the approaching spring is the way that the local prep schools are starting to practice baseball and track work. Nearly all of the schools that are in this organization have held several practices in these branches of sport work, and a good line can now be secured upon the local baseball league. While the official schedule for the Prep Baseball League has not been made, it is expected that the season will start in April. The track season will also start in April, and the local track teams will be in good shape for the season.

Tech High Will Have Great Teams.

Teams at Tech High in both branches of their sport have been holding practice for about three or four weeks now and have gotten the jump on the other members of the local league. Tech High's prospects for a good season are very bright. The baseball team has been practicing for about three or four weeks now and have gotten the jump on the other members of the local league. IRA STREET PUPILS RECEIVE CANDY FOR GOOD WORK

The fifth grade is sorry to lose their beloved teacher, Miss Beattie Campbell, who has been transferred to another school. The school is very sad to lose her, but they are learning to live with their new teacher, Miss Fowler, very much.

At our last party Mrs. Victor Moore told many delightful stories to the large and attentive audience of children. She has promised to tell us more stories once a month. Mr. Elston was at the school the same afternoon to speak to the members of the Parent-Teacher club. He came in before the school and told a very good story, and a few friends were with him. They enjoyed the treat so much that they were all glad to see him.

Last week all the children in the school who had been in oral spelling for the month were rewarded. Great big sticks of candy were given to the children who had been in oral spelling for the month. The children were very happy to receive the candy, and they were all glad to see the teacher.

The eighth grade entertained the fifth grade on Monday, February 22, to celebrate George Washington's birthday. HILL SCHOOL WINS LONG-BOUGHT PRIZE AFTER HARD WORK

After much hard work we finally captured our long-sought prize—a library. A large number of books were donated to the school, and the children were very happy to receive them. The children were very happy to receive them, and they were all glad to see the teacher.

POINTS SCORED RACE TIGHTENS

Scott, of Boys' High, Tops the League—A Few More Games Left on the Prep Schedule.

The race for the leadership of the local prep league has been coming along at a rather slow pace during the past week, due to the fact that there were but few games played throughout the prep circuit. The game in which the candidates contested their points was the Marist-Mountain game, in which the Marist boys added quite a little bit to their sums by winning the game.

Remarkable Diary of Mrs. Livingston Mims

Being the notations made by her of those things worth more than passing notice, giving an intimate study of the south, throwing interesting sidelights of the men and women of prominence in the days of the south's re-making. Diary edited for publication by Miss Isma Dooly.

MRS. MIMS

Photo shows her as she appeared when this installment of her diary was written.

This—the fifth installment of the diary of Mrs. Livingston Mims—presents a series of incidents covering three years' time, beginning in 1880, in which she introduces, with charming comments, people then, as now, celebrated in Georgia's history, social and political.

She makes her first reference to Henry Grady, and gives a touching description of the funeral of Georgia's "silver-tongued orator," United States Senator Benjamin Harvey Hill.

She pays high tribute to Bishop Beckwith, at that time bishop of the Episcopal diocese of Georgia (the father of Mrs. Alexander Lawton, of Savannah, and Miss Beckwith). She notes conversations with General W. B. Young, of Georgia, and L. Q. C. Lamar, whom she frequently entertained.

Comments upon the visit here of Oscar Wilde, quoting his criticisms on our riotous celebration of the Fourth of July.

She visits her old home in Mississippi again and visits New Orleans, where she was entertained by Colonel and Mrs. Breaux, and others. They were the parents of Daisy Breaux, afterwards Mrs. Andrew Blythe, now Mrs. Barker Gummere, of Princeton, N. J.

Last night after retiring I received Captain Ferguson's card. It having been seventeen years since we had had quite forgotten him, but though the card was for Emma, but he said no and recalled himself to me as a very brilliant officer in our army whom I met during his convalescence from a severe wound. He will call this evening.

General Chalmers called, too. I was shocked at the ravages of time, and would never have recognized him as the boyish-looking man and dashing general of other days.

I am greatly interested by Emma's school-joy at being out of the convent, and at her extreme pleasure in the society of gentlemen, particularly in that of young Mr. . . . nephew and namesake of the senator from Kentucky.

FROM MRS. MIMS' DIARY.

He gave me a splendid thought that simplifies wonderfully the plan of creation: That if we would only consider that the world and man were not created for the sake of man and men, but for the sake of the God-Man—the climax of humanity.

Thank Heaven, I am blest with the consciousness of possessing men friends; permitted to enjoy their companionship, and that their characters are sufficiently exalted to admit of such companionship.

His beautiful snow-white hair looks like the badge of sanctity bestowed by the hand of Time.

Othello, while a victim, is a noble one, and Iago certainly is the most intellectual as well as the most consummate of villains.

It is true our egotism suffers from the thought that we are only an atom in a universe of worlds, but how is the comprehension of the soul enlarged in contemplating an infinity of worlds?

Daniel Webster said: "Never did a man more completely perpetrate in himself the united peculiarities of his parents than did Benjamin Franklin—his father was an egotist and his mother a miser."

If we were more ethereal we might see our spirits face to face.

The Doctor's Advice

By Dr. Lewis Baker

The questions answered below have been asked in thousands of letters to the Doctor. They are of a general nature and are not intended to be taken as a substitute for a personal consultation with the Doctor.

"Doctor, what can I take for a bad cold?" "I have a cold and my head aches. What can I take?" "I have a cold and my head aches. What can I take?"

MEMO KOPSERVICE

ENTIRELY NEW IN CONSTRUCTION

IN EXCLUSIVE FEATURES

IN HYGIENIC PROPERTIES

IN STYLE EFFECTS

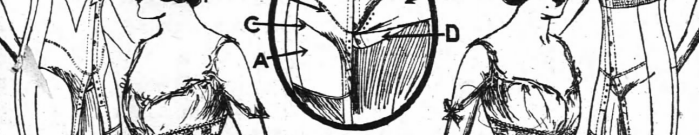

AT \$5.00

OF VITAL IMPORTANCE TO ALL WOMEN

THE new Memo KOPSERVICE Corsets completely solve the vexed problem of the day by harmonizing the "nature figure," as a distinct fashion-type, with the inviolable hygienic features for which Memo Corsets are famous throughout the world.

KOPSERVICE Corsets perform the seemingly impossible by enabling all women, from very slender to extra-stout, to attain a "nature figure" without sacrificing one iota of comfort or safety.

The influence of this radically new system of corset-construction will be felt immediately in all the world's fashion-centres, where already the Memo is a predominant factor.

Z. Detail of the corset, showing the effect of the "nature figure" on the corset.

KOPSERVICE construction produces practical results in two ways:

The corset-body, in the front, being free from the influence of the "nature figure" on the corset, is self-adjusting and remains firmly in proper place, no matter what the attitude or pose.

The corset-body, hanging free from the front of the corset, with the attached bone supports, strongly reduces the upper limbs, but is made easy and comfortable by the semi-elastic Lascruve-back, which provides for ample "give" when seated.

In the models for stout figures, (Nos. 551 and 552), the abdominal support is given by the curved front, and the converging bands, which give a perfect hygienic support from underneath.

No. 551 For slender and medium figures. Practically of semi-elastic Lascruve-back, with bone supports. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

No. 552 For medium figures. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

No. 553 For stout figures. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

No. 554 For stout figures. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

No. 555 For stout figures. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

No. 556 For stout figures. Very fine of material, well made. Size, 34 to 36. Price, \$5.00.

WAGS - THE DOG THAT ADOPTED A MAN

BUB - HE'S ALWAYS TO BLAME

HANK AND HIS ANIMAL FRIENDS By Walt McDougall

Mortified By Pimples Face

Stuart's Calcium Wafers Will Restore Good Looks and a Clear Complexion to Your Face.

There is no humiliation so intense as the knowledge that people are constantly noticing the pimply condition of your face. Women, especially, realizing the attraction of personal beauty and longing as every woman does for admiration and love, find them the source of the greatest unhappiness and misery. They know that even to their own families their pimples are annoying, and they imagine they are the laughing stock of every stranger.

Don't Be Ashamed to Show Your Face. Stuart's Calcium Wafers Will Drive Away All Pimples and Skin Eruptions.

We have a message of hope for every sufferer from these annoying eruptions—today—at once—you may see the beginning of the end of this humiliating condition. Tomorrow when you look in the glass you will begin to see a difference and before long you will be free of every pimple you know its master.

Pimples, rashes, blotches, liver spots, and other skin eruptions are signs of a diseased blood. Stuart's Calcium Wafers cure these by purifying the blood of all impurities. These little wafers assimilated into the blood go right to the spot until every drop of blood in your body has been purified. And with pure blood supplied, your skin will become clear and beautiful with a radiance that would hardly seem possible. It is not so often noted that every woman should have a fine, soft skin with a beautiful complexion. Some how your blood has become vitiated and full of impurities and your face has suffered for it. But with Stuart's Calcium Wafers, you can cleanse your blood and restore your face to its natural beauty.

Watch Your Pimples Go Away

Then Feel the Ecstasy of Delight When Your Complexion Is Made Perfect By Stuart's Calcium Wafers.

Don't worry about your pimples. Stop that heart aching and regret. Just make up your mind that you are going to use Stuart's Calcium Wafers and make pimples vanish.

"I Don't Look Like I Did When I Used Stuart's Calcium Wafers."

The pores of the little mouths. Each has a sort of valve that keeps the blood from coming out. When the valve refuses to work and pimples, blotches, rash, liver spots, etc., appear.

Stuart's Calcium Wafers keep the pores open and the canals then carry off the waste matter and bad elements into them.

Pimples Go Beauty Comes

You Just Can't Help Having a Beautiful Complexion If You Use Stuart's Calcium Wafers.

Pimples! Horrors! And what a wonderful change when they are all gone. Most everyone has noticed Stuart's Calcium Wafers have made thousands of complexions as pure and as beautiful as could possibly be wished.

SAID GOODBYE TO PIMPLES

Stuart's Calcium Wafers Will Drive Them Away. Creams Will Never Do It. They Can't.

No need for any one to have a complexion disfigured by pimples, blotches, liver spots or blackheads. Just clear the blood of impurities and they'll go away.

Stuart's Calcium Wafers cleanse and clear the blood, driving out all poison and impurities and you never have a good complexion until the blood is clean.

These little wafers may be used with perfect freedom. No matter how many pimples, blotches, liver spots, or blackheads, they are entirely free from narcotics or poisons. Your doctor prescribes these hundreds of times a day.

The soft, rosy tint that the cheeks show, the neck, shoulders and arms show, you just can't help having. It is the result of a beautiful complexion if you use Stuart's Calcium Wafers.

Take Off Your Pimples

Behind a Mass of Pimples Beauty Often Lies. Stuart's Calcium Wafers Will Quickly Remove Them.

All about us every day we see women who would be exquisitely beautiful were it not for the horror of pimples, blotches, and other skin eruptions. This condition is primarily brought about by impurities in the blood and by over-eating. Correct this condition and almost instantly the skin is beautiful again.

Face a Sight, But In a Short Time Stuart's Calcium Wafers Worked Wonders.

Many an otherwise pretty girl is distressed with her appearance. Poor girl! she doesn't yet know that Stuart's Calcium Wafers will quickly transform her into a perfect dream of loveliness. And many a young man with tender skin that growing a blemish is also a sight to behold. All the face creams in the world are useless but make. They do not overcome pimples, but merely allay surface irritation.

Skin-health must come from within. Skin-health is made from the blood, and as it is a tendency of nature to throw off a good share of impurities through the skin, naturally impurities gather on the skin in the form of pimples, blotches, blackheads and other eruptions. But Stuart's Calcium Wafers have a remarkable activity in the blood which works the skin as an outlet for its impurities. These are thrown off in visible mites or gas, are contained in the oxygen of the air and in a few days all impurities of circulation and skin-health are overcome.

"I Took Off My Pimples with Stuart's Calcium Wafers."

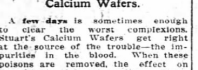

The greatest blood purifier known to science is Calcium Sulphide. It is one of the most marvellously acting ingredients nature has ever given man to assist in blood cleansing.

It does not matter what your trouble may be—pimples, blotches, liver spots, muddy complexion, liver, rash, etc., Stuart's Calcium Wafers quickly correct the faulty conditions and restore a normal and delightful complexion.

Can Almost See Pimples Go

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

You don't want to wait forever and may be put off by the fact that you may want to go somewhere where you may not like to have to take the pimples along.

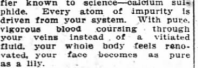

"I Am Free from All Ugly Face Eruptions and Skin Eruptions."

Science has proven Calcium Sulphide to be the most powerful blood purifier known. Stuart's process of giving the system this great cleaner for the blood has been called the best for preserving the full strength of Calcium Sulphide. Calcium Sulphide is not a poison. It is harmless, though greatly potent.

Children may take it with freedom and know that organic systems thrive with its use.

Skin diseases free when the blood is charged with this great eradicator. The blood at once feels its influence and eruptions cease and fade away. Most beyond belief, so immediate is its action.

No matter what degree of eruptive skin trouble you may have, Stuart's Calcium Wafers will purify and enrich the blood. These little wafers go into the stomach just like the skin impurities get in. They tune up this organ, enter the intestines, are absorbed by the lacteals and lymphatics, are drawn into the blood, come quickly to every organ and atom of the body, and remove impurities and decay. The lungs are assisted, the liver is aided, the stomach is purified, and skin diseases are assailed from their source. All refuse of the body is cut off from the rear and very quickly nature purges the effects of such malice and skin diseases in the form of pimples, eruptions, blackheads and scalp formations.

"Stuart's Calcium Wafers Are Simply Grand to Remove Pimples and All Skin Eruptions."

Calcium Sulphide, which is the principal ingredient of Stuart's Calcium Wafers, is the most powerful and beneficial blood purifier known to modern medicine; and when these wonderful little wafers are taken into the system they do their work with remarkable swiftness. In many cases, to renovate and cleanse the blood, and to remove all pimples, blotches, boils, carbuncles, ringworm, liver, eczema and many other skin diseases.

They contain no poisonous drug of any kind, are perfectly harmless and can be taken with absolute freedom, and they work almost like magic. Calcium Sulphide, their principal ingredient, is the greatest blood cleanser known to science.

No matter how bad your skin may be, Stuart's Calcium Wafers will quickly work wonders with it. It's goodbye to blackheads, pimples, carbuncles, rash, eczema and a dirty "mildew" complexion.

EVERY COMPLEXION May Be Quickly Beautified By a Short Use of Stuart's Calcium Wafers.

Listen! The skin breathes, just as do the lungs—and what will enable the skin to do this means skin health. The instant the pores exhale the poisons in the skin they at once die.

Just as when your lungs breathe out they also fortify themselves against intrusion. The action of Stuart's Calcium Wafers is to keep the skin breathing, and with every breath out so these impurities that lodge in the pores in a short time all redness is gone, the rough, scaly skin evaporates, leaving a smooth, refined complexion, clear, clean shoulders, and the skin from head to foot entirely rid of all traces of pimples.

Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all those awful pimples, blotches, acne, muddy complexion rapidly disappearing and your face cleared like the petals of a flower.

And Stuart's Calcium Wafers are absolutely harmless to any one. Their ingredients are just what a physician prescribes in modern medicine for skin diseases and poor blood. These wafers are put up in concentrated form which makes them act quickly and thoroughly.

Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all those awful pimples, blotches, acne, muddy complexion rapidly disappearing and your face cleared like the petals of a flower.

They tune up this organ, enter the intestines, are absorbed by the lacteals and lymphatics, are drawn into the blood, come quickly to every organ and atom of the body, and remove impurities and decay. The lungs are assisted, the liver is aided, the stomach is purified, and skin diseases are assailed from their source. All refuse of the body is cut off from the rear and very quickly nature purges the effects of such malice and skin diseases in the form of pimples, eruptions, blackheads and scalp formations.

"Stuart's Calcium Wafers Are Simply Grand to Remove Pimples and All Skin Eruptions."

Calcium Sulphide, which is the principal ingredient of Stuart's Calcium Wafers, is the most powerful and beneficial blood purifier known to modern medicine; and when these wonderful little wafers are taken into the system they do their work with remarkable swiftness. In many cases, to renovate and cleanse the blood, and to remove all pimples, blotches, boils, carbuncles, ringworm, liver, eczema and many other skin diseases.

They contain no poisonous drug of any kind, are perfectly harmless and can be taken with absolute freedom, and they work almost like magic. Calcium Sulphide, their principal ingredient, is the greatest blood cleanser known to science.

No matter how bad your skin may be, Stuart's Calcium Wafers will quickly work wonders with it. It's goodbye to blackheads, pimples, carbuncles, rash, eczema and a dirty "mildew" complexion.

EVERY COMPLEXION May Be Quickly Beautified By a Short Use of Stuart's Calcium Wafers.

Listen! The skin breathes, just as do the lungs—and what will enable the skin to do this means skin health. The instant the pores exhale the poisons in the skin they at once die.

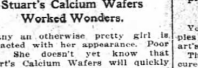

Just as when your lungs breathe out they also fortify themselves against intrusion. The action of Stuart's Calcium Wafers is to keep the skin breathing, and with every breath out so these impurities that lodge in the pores in a short time all redness is gone, the rough, scaly skin evaporates, leaving a smooth, refined complexion, clear, clean shoulders, and the skin from head to foot entirely rid of all traces of pimples.

Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all those awful pimples, blotches, acne, muddy complexion rapidly disappearing and your face cleared like the petals of a flower.

Take Off Your Pimples

Behind a Mass of Pimples Beauty Often Lies. Stuart's Calcium Wafers Will Quickly Remove Them.

All about us every day we see women who would be exquisitely beautiful were it not for the horror of pimples, blotches, and other skin eruptions. This condition is primarily brought about by impurities in the blood and by over-eating. Correct this condition and almost instantly the skin is beautiful again.

Face a Sight, But In a Short Time Stuart's Calcium Wafers Worked Wonders.

Many an otherwise pretty girl is distressed with her appearance. Poor girl! she doesn't yet know that Stuart's Calcium Wafers will quickly transform her into a perfect dream of loveliness. And many a young man with tender skin that growing a blemish is also a sight to behold. All the face creams in the world are useless but make. They do not overcome pimples, but merely allay surface irritation.

Skin-health must come from within. Skin-health is made from the blood, and as it is a tendency of nature to throw off a good share of impurities through the skin, naturally impurities gather on the skin in the form of pimples, blotches, blackheads and other eruptions. But Stuart's Calcium Wafers have a remarkable activity in the blood which works the skin as an outlet for its impurities. These are thrown off in visible mites or gas, are contained in the oxygen of the air and in a few days all impurities of circulation and skin-health are overcome.

"I Took Off My Pimples with Stuart's Calcium Wafers."

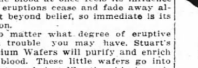

The greatest blood purifier known to science is Calcium Sulphide. It is one of the most marvellously acting ingredients nature has ever given man to assist in blood cleansing.

It does not matter what your trouble may be—pimples, blotches, liver spots, muddy complexion, liver, rash, etc., Stuart's Calcium Wafers quickly correct the faulty conditions and restore a normal and delightful complexion.

Can Almost See Pimples Go

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

You don't want to wait forever and may be put off by the fact that you may want to go somewhere where you may not like to have to take the pimples along.

"I Am Free from All Ugly Face Eruptions and Skin Eruptions."

Science has proven Calcium Sulphide to be the most powerful blood purifier known. Stuart's process of giving the system this great cleaner for the blood has been called the best for preserving the full strength of Calcium Sulphide. Calcium Sulphide is not a poison. It is harmless, though greatly potent.

Children may take it with freedom and know that organic systems thrive with its use.

Skin diseases free when the blood is charged with this great eradicator. The blood at once feels its influence and eruptions cease and fade away. Most beyond belief, so immediate is its action.

No matter what degree of eruptive skin trouble you may have, Stuart's Calcium Wafers will purify and enrich the blood. These little wafers go into the stomach just like the skin impurities get in. They tune up this organ, enter the intestines, are absorbed by the lacteals and lymphatics, are drawn into the blood, come quickly to every organ and atom of the body, and remove impurities and decay. JOHN HENRY VISITS OLD SPLASHBURG

"Remember those nice white dorkbooks we ate for breakfast next morning?"

By George V. Robert.

Copyright, 1913.

If you'll look real close you'll find

Splashburg on a map of the middle

west.

It's a railroad junction where careless

travelers change cars and wait for

the other train, which is always late.

A week ago I happened to be one of

those careless travelers, marooned in

Splashburg, and having a wicked hour

or two to kill I strolled over to the

Commercial House.

Steb Stephens is the name of the

head clerk at the Commercial house

in Splashburg. Steb has been throwing

keys at the wall for a long time and

he knows how to turn the doorknob.

He played the Big Time once. Ten

years ago he was a bell hop at the old

Willard in Washington and after that

he jumped to Chicago as night porter

at the old Sherman house, so when Steb

doesn't know about the hotel business

he's worth a hundred dollars.

Steb gave me a brief outline of his

life history and was just starting to

tell me about the battle in the civil

war in which his father was shot and

who shot him when a feverish old lady

with Persian rug trimmings on her

arm came in and began to

peep out of him about the pie he

had eaten for dinner.

"Chalmers you're," said smiling Steb,

"but cut out, sir, how can it be out if

you've eaten it, sir? It's an out-out

and I shall leave this hotel to-

morrow," said Omar Khayyam.

"With the exception of a little bal-

ance due to me, that was about all from

you," said Steb.

"I'll see the proprietor," said the old

lady, moving away with a face on

his face like four dollars in bad money.

"We get it, good and plenty every-

thing about six feet tall, wearing a

blue coat and a blue hat, and a blue

bag, and a blue bag, and a blue bag,

and a blue bag, and a blue bag, and

a blue bag, and a blue bag, and a

Afternoon Gowns

THE new skirts are the most interesting feature of the new Spring styles. They continue to be draped, sometimes from the front, sometimes from the back, sometimes both from the front and from the back. They are still narrow about the feet. The bustle will be noted on one of the small central figures, and the peplum with a frill, the descendant of the lamp shade tunic, will be noted on the other figure in the center and on the figure to the right.

Many long sleeves will be seen. Medici collars with its modifications will be seen everywhere. Collars are invariably high at the back. Broad sashes are still worn, and the vest effect is still popular. Hats are simple in design and have little trimming. Many of the shapes are odd: as for instance, that on the figure to the right. They are, for the most part, not wide.

March Ushers in a Magnificent Sale of Oriental Rugs

A Regal Assemblage of Beautiful and Durable Oriental Rugs at Savings of a Fifth to a Third

Within the past twenty-odd years we have distributed hundreds of Oriental rug throughout Atlanta and the south. These rugs have stood the test of time; most of them look as well today as when first bought. They will continue to give service. There is no luxury as sensible as Oriental rugs, for they not only wear all other floor coverings, but they also add elegance to the home. Because Oriental rugs give such unending service, the demand for them is increasing. Present prices on the finer rugs are at a minimum. You could pay for a fourth to a third more and still have your money well invested. For these reasons we are as proud to hold this March Sale of Oriental rugs as you will be to have them adorn your home. Though the stock is almost inexhaustible in variety, space permits only these hints:

Ratines: A Superb Quality at \$1 a yd.

How we can sell this fashionable ratine at \$1 a yard is of less interest than the fact that it is here. Moreover, it is a superb quality, every thread perfect. The surface shows little nubs—a rough effect exceedingly rich and captivating. What is more, we have a complete color assortment: Copenhagen, pink, rose, reseda, mustard, tango and wistaria. 42 inches wide. Since ratines long large on the Spring Fashion horizon, there should be a buzz and a stir to get these at \$1 a yard.

Rich's New & Enlarged Corset Section Announces that Miss Jackson is here to demonstrate the merits of the Bon Ton Corsets

INASMUCH as Miss Jackson has been coming to Atlanta every Spring and Fall for a number of years, this news will interest the many women whom Miss Jackson has so satisfactorily fitted in the past.

The Bon Ton Corsets

have been long and favorably known as among the best of the finer grade of corsets. The 1914 models for Spring sustain their high reputation. After Miss Jackson fits a Bon Ton that suits one's figure, that woman is ready for the Spring campaign with tailors and dressmakers. Appointments can be made by telephone.

Bon Ton Corsets are \$3 to \$25.

Prices Are Revised Downward On Nainsooks & Longcloths

While this store is run for profit, we have no desire to take all "the tariff will bear." Though these nainsooks and longcloths are firmly established, and are excellent values at their first prices, changed trade conditions enable us to drop the price 25c a bolt on certain numbers. Our many customers, we know, will be glad to buy at these revised and lowered prices. All longcloths are in 12-yard bolts.

A Little Journey to the Home of Oriental Rugs

Our trip takes us to Persia, Syria, Turkey—various places in the Orient where time and labor mean naught. With infinite patience a native puts in a year, two years, or more, on one rug. Her wage—for the work is carried out chiefly by women and girls—is five or ten cents a day.

Rug Designs Require Interpretation

While it is impossible to understand accurately the symbolism of the Oriental rug, each design is fraught with significance. The circle signifies continuity; zig-zag figures, lightning; the lotus, new life and fecundity; the palm, a blessing or benediction. Color symbolism is equally important. Blue stands for truth, virtue and sincerity; orange, resignation; yellow, joy and victory; black, evil; white, purity and innocence.

The Wonderful Durability of Oriental Rugs

Is due to the careful selection and preparation of the woolen yarns and dyeing. The dyeing process is generally a family or tribe secret zealously guarded and handed down from generation to generation. The woolens plus the peculiar method of hand-tieing each knot make Oriental rugs.

The Most Economical of Floor Coverings

Though the increasing demand for Oriental Rugs has brought into the market much that is spurious and of little value, any one can buy of the well-established stores with the assurance that the rug, if given proper usage, will be a lifetime investment.

Spring Suits Make Instant Appeal

THERE'S a subtle charm about the Spring suits. It may be their picturesque frivolity; their departure from severe tailored lines; perchance it lies in their delicate frills and purlins, or the draped and pannier skirts. But a fig for analysis—the point is, Milady finds the suits becoming.

"But," says a conservative customer, "I don't want a suit all frills and flounces and furbelows." Precisely! Here are models of clever styles plain as a pipette; their dash and piquancy due wholly to the way they are cut.

CHAS D HURT

THERE is a vast difference between a barn and a bungalow. You have seen the barn, now let me show you the bungalow. I will admit that there are a few bungalows in Atlanta, but they are of the higher priced type, but there are many more of the medium price. I have just completed five. I sold them all before I was finished. I will show you one under way now. I can build you a real bungalow on your lot, with five rooms and hall complete, from \$1,350 to \$1,650. These will sell from \$950 to \$1,050. Right? If you are from Missouri drop in and I will be glad to show you what I am doing. When I am not building for myself I take enough contract work to keep my men going. I will cost you nothing to talk to me, you might save \$111. I am Paulist, not Stalin. FORREST & GEORGE
ADAIR,

PETUS IS GIVEN AUTO ASSOCIATION

State-Wide Organization
Planned at a Meeting of
Local Auto Men and the
Georgia Chamber Officers

Greater impetus was given the movement to organize a state-wide automobile association at a meeting of the Atlanta Auto and Accessory association and officers of the Georgia Chamber of Commerce yesterday.

President Charles J. Haden, and Secretary Haden, representing the Georgia chamber, submitted a proposition on the part of that organization to work in harmony with the Atlanta auto dealers in the movement to organize the state organization. All that was asked of the local association is that it cooperate in the good roads campaign which the chamber has launched throughout the state.

Auto Men Present.
There were more than thirty members of the Atlanta Auto and Accessory association present at the meeting, and for more than two hours the members discussed the state-wide organization and the good roads movement. It will be recalled that at the annual meeting of the association held on Monday, the association went on record opposing any movement which will have the effect of creating an additional tax on the automobile.

This committee reported back to the association Saturday. The report was favorable to the state organization, and it suggested that the local association get the project started immediately.

President Haden and Secretary Haden informed the association that the Georgia Chamber of Commerce is not aiming to place a tax on automobiles as a method of creating the fund demanded by the federal government to meet its appropriation for good roads in the state.

Meeting on Monday.
There will be another meeting of the Atlanta auto dealers on Monday. The meeting will be for the purpose of hearing the report of the committee appointed to take up the chamber of commerce proposition to work with the auto association in the matter of organizing a state association.

The committee is composed of George McCutcheon, J. K. Gwinnett, W. E. McNairy, W. C. Mahoney and T. B. Lewis.

Goodrich Company Men
Are Banqueted by Price
on Eve of His Departure

The employees of the local R. F. Goodrich company branch were treated to a dinner last evening by H. A. Price, retiring manager of the Atlanta branch, who has been promoted to the management of the R. F. Goodrich company at Washington.

While connected with the local branch Mr. Price had been in the city, who are sorry to hear of his leaving Atlanta, but who are glad of his recent promotion to the Cleveland branch. Mr. Price will leave Monday for Cleveland.

JOINS BUICK FORCE
HERBERT H. SIMON.
Now with Buick Motor company.

A change of business connections which will occasion some little surprise in local automobile trade circles was that made by Herbert H. Simon this week, when he left the Overland Southern Auto company and went with the Buick Motor company's local sales force.

This change will be of interest to Buick Motor company, as Mr. Simon has been with the Overland for nearly two years, and has been very successful in following of satisfied customers by his untiringly careful attention to his customers' needs and interests.

Mr. Simon, while still a young man, had a very thorough business training, both in the merchandise and selling ends, while connected with his father, Mr. C. C. Simon, head of the

NEW AMERICAN RECORD
MADE BY KOLEHMAINEN
Buffalo, N. Y., February 28.—Hannes Kolehmainen established a new American one-hour running record here tonight, covering 11 miles 151 yards.

The best former American mark, held by Sid Thomas, was 10 miles 118 1/2 yards, made on November 20, 1895.

Kolehmainen fell short of breaking the world's record, held by Jean Bouin, of France, by 675 yards.

Kolehmainen ran against a relay team of four runners, who covered nearly two more laps than the Finn. He did not equal any of his own records for the three-quarters of a mile.

Abel R. Kiviat, who the three-quarters of a mile, was 10 miles 118 1/2 yards, made on November 20, 1895.

ter mile handicap from a field of twenty, with handicaps up to 50 yards. Joe Driscoll, the other scratch man, met with interference from the big field, and had no chance to contest the final sprint with Kiviat. The time was 2:05.

AMERICAN AUTOMOBILE
CROSSES THE ANDES
Washington, February 28.—An American-built automobile, driven by John Martin, a Princeton football player of recent years, has succeeded in crossing the Andes, thus achieving a victory for which automobiles of a number of foreign makes have been

striving for five years or more. A cablegram today to The Pan-American Union announced Martin's arrival in Santiago, Cuba, from Buenos Ayres.

Martin crossed the backbone of the South American continent at a height of more than 13,000 feet through Uspallata Pass.

Horse Show Officers.
New York, February 28.—The resignation of Alfred C. Vanderbilt, president of the National Horse Show association, was announced by the board of directors tonight.

E. T. Stotesbury was re-elected vice president. Frederick M. Davies, treasurer, and James C. Fiske, secretary.

Robert A. Palmer, chairman of the executive committee for some years, resigned, and in his place Alfred MacLay was elected. Other members of the executive committee are J. M. Velie Trucks Demonstrate Profitable Delivery Over That of Horse Drawn Vehicles

Extreme winter days, with snowy, slippery streets or roads, or the extreme hot days of summer--it makes not a particle of difference, Velie Motor Trucks have proven beyond a doubt their practicability, their economy, and their efficiency over that of the horse drawn vehicles.

DON'T PUT OFF ANOTHER DAY!
Stop using the old, antiquated system of horse and mule delivery---
MODERNIZE YOUR DELIVERY SYSTEM!

A careful scientific engineering department, maintained by the Velie Motor Co., will be glad to solve your delivery problems. They have already studied a variety of concerns that used the old form of delivery—figures were given, scientific demonstrations were made, and in every instance the old form of horse drawn vehicles system was discarded for the

More Modern, the More Economical and the More Efficient Motor-Propelled Trucks.

Not only has economy of operation, when Velie Trucks are running, been taken into consideration, but also economy in time saved and the low maintenance of a truck when standing still, for unlike the horse, the motor truck eats only when it works.

Let us submit a proposition on a guaranteed cost of operating a Velie Truck for you. This is a proposition never before made by a manufacturer of Motor Trucks. It will interest you. Write today or phone Ivy 5534.

Delayed delivery of thousands of dollars worth of merchandise—horse drawn vehicles fail to render service when most essential—customers' losses increased through lack of "service" in keeping with modern business methods.

STERN FACTS—ACT NOW

Animals, however, suffered extremely from the obstruction of the streets. By 1 o'clock Wednesday morning horses and mules began to fall upon the slippery streets, and a block soon on one side hardly find half a block in the business district without several horses and mules lying on the ground.

The question was that by the middle of the afternoon all horse-drawn traffic had practically ceased. Horses were piled up in the streets, and led to the slaughter. Many were killed, and others were maimed.

"We've got nothin' in the bag at all, now, but we could make a couple cylinders, here, and pump the air all out of them, and you could have a couple cylinders full of air, but if you took a bag and surrounded the air with that vacuum 'nuthin', then you could all float down, and there'd be nothin' to hold 'em back. That's what they're doin'."

"We'll," said Uncle Abner thoughtfully, "you're right as far as you go, but we didn't do it that way. We pumped the air out of them bags, and when there was all flat and empty we took funnels and poured the vacuum into them bags, and tied a string around the neck of each bag, by the vacuum couldn't get out. And then we loaded her so full of bags that she would sink down into the water until her rail was a foot or two under water."

"It was, was it?" said Slim Perkins, practically. "You took them bags of vacuum, that was lighter than air, and you foisted the Solly on 'em, didn't you? Why, digger it airtight, and you had made the old ship float in the air like a balloon and not sink down in the water. If you was on that ship you could say Solly wouldn't sink, 'cause up into the air it would float, and against the water, I might believe, it wouldn't sink. But it could be a little any different, 'cause, heve, heve, heve."

"As I was sayin' when interrupted, said Uncle Abner, "the reason the Solly sank into the water, he she did was 'cause them bags, to which we poured the vacuum was made of lead—oh, sheet lead. I had 'em on made of lead 'specially. I had 'em wadded with soft brass enough to make 'em sink. And the vacuum was blown up 'nigh then they wouldn't sink."

"Thought you said they was so heavy they sunk the ship into the water," said Slim Perkins.
